955	IU Entry Screen - Table Maint dropdown menu not visible, disappears behind fields. There are multiple places where this type of problem exists with the dropdowns on different screens.	Dan Soper/NTS	2	5	Enhancement			Useability	06/27/06
960	General Observations - Can you lock the Main Header Bar and Asset information at the top of each page so you don't have to scroll all the way back up.	Dan Soper/NTS	2	3	Enhancement			Useability	06/27/06
928	IU Detail Screen - Move "repair Purpose" back to right position of "Equipment ID" to close empty space.	Jane Nations/Y12	2	1	Enhancement		web beta 10	Useability	06/27/06
929	IU Detail Screen - I like the alternate hi-lighting on the adders screen - suggest using something similar on the IU detail screen (maybe to split sections?). Makes viewing the screen easier.	Jane Nations/Y12	2	1	Enhancement			Useability	06/27/06

979	Would like the tabs at the top of the IU Detail to look like the Centralized version ie: IU(s) – Alt 2, IU Detail – Alt 3, Deficiencies – Alt 4, Cost Adders – Alt 5, etc.	S. Patterson, Pantex	2	2				Useability	07/05/06
974	At the IU list of an asset, when filtering by discipline, should be able to hit the enter key or select filter button to run. Enter key does not run it right now.	Steve Patterson, Pantex	2	2	Enhancement			Useability	07/05/06
977	Need a one-page print screen option (landscaped) for IU's.	Steve Patterson, Pantex	2	2	Enhancement			Useability	07/05/06
1060	add a spell checker to CAIS	T. Hinojosa Pantex	3		Enhancement			Useability	09/09/06 - 10/31/06
924	IU Detail Screen - Spacing is confusing. Move titles and fields closer together. Also decrease space between lines, if possible.	Jane Nations/Y12	2	2	Enhancement			Useability	06/27/06
941	Asset Detail Screen - Same as IU detail - spacing is confusing; font size needs to be same for fields and titles; reduce empty space, etc.	Jane Nations/Y12	3	3	Enhancement			Useability	06/27/06
854	Make the Type Description field 200 characters in length. Currently the field allows 40 characters.	Dan Soper/NTS	1	2	Enhancement			Useability field size

952	IU Entry Screen - Not having it fit into one view will require lots of mouse movement to view the whole screen. (Model Type and Planned Model Type on separate lines to condense the screen on detail screen)	Dan Soper/NTS	2 - change to 1?	3	Enhancement			Useability 1 Billy Ray - roll mouse changes the field when we have to do so much scrolling	06/27/06
937	IU List Screen - I need capability to sort from the IUList screen. You have the filter, which is nice, but I need to sort (i.e. tracking #; component; location; equipment ID, etc).	Jane Nations/Y12	2	4	Enhancement			Useability 1 Jane	06/27/06
954	IU Entry Screen - We work this screen from top to bottom and don't want to have to scroll back to the top to continue on. Need the buttons on the bottom where they were. At the MINIMUM we need a SAVE button on the bottom.	Dan Soper/NTS T. Hinojosa/Pantex	1	2	Enhancement			Useability 2 Billy Ray	06/27/06
996	Need the Alt 7 Snapshot or Baseline screen and the ability to print it like on the Version 5.2. I print out this sheet with a data entry screen shot when the records are used for re-estimating and to show the IU costing and flagging history for justifying TYSP and FIRP projects with the correct 03 or 04 or current deferred maintenance costs. Without this sheet, I have to go back to a big spreadsheet and/or go find the applicable IU track numbers and cut and paste the baseline costs with flags. Or just use Version 5.2, which works fine (the Alt. 7 screen is on the stand alone version 5.2 and I use this all the time. Why isn't this working on the Web?)	Gene Buck/LANL	1	2	Enhancement			Useability 2 Buck We need to discuss - .	07/06/06
962	Favorites Page -2. The screen is too wide, it needs to be resized to view without shifting side to side. You have to pick the component at the far left side, but you can't see the component description because it is off the screen so you don't know what you are picking.	NTS Inspectors	2	2	Enhancement		User Guide Update	Useability 2 Dan Billy Ray #3 Marilyn #3	07/03/06
944	Reports - I was not expecting the reports to be different. The 'Complete Survey Detail' needs to be cleaned up and fixed so it has same appearance as current version. It has taken a long time to get the building managers comfortable reading current rpt.	Jane Nations/Y12	1	2	Enhancement			Useability 2 Jane Billy Ray #4 Marilyn #1	06/27/06
963	Detail Page - 1. The page should be viewed without having to scroll up or down	NTS Inspectors	1	2	Enhancement			Useability 3 Dan Marilyn #4	07/03/06

1007	Summary Condition Report - This report desperately needs the "check all" and "clear all" buttons. I have 1500 assets	Gary Hoe/SNL	2	2	Enhancement			Useability 4 Gary Summary Condition	07/07/06
927	IU Detail Screen - Can fields be put back in same order from old system? (we are very used to the layout - would be nice to keep consistent).	Jane Nations/Y12 Dan Soper/NTS	2	3	Enhancement			Useability 4 Jane	06/27/06
964	Detail Page - 2. Currently when opening new detail page we tab twice to reach Inspector ID box. With this version we have twenty-one key strokes to reach the same box	NTS Inspectors	3					useability 5.2 Version	07/03/06
953	IU Entry Screen - At least move the REPL QTY under QTY and get the Official Cost over with the other costs as well as the Repair Purpose to the right where it was.	Dan Soper/NTS	1	2	Enhancement			Useability alignment	06/27/06
939	IU List Screen - Equipment ID field on IU List screen wraps rather than listing to length of field? (makes list very long).	Jane Nations/Y12	3	2	Enhancement			Useability field display	06/27/06
926	IU Detail Screen - Use same font for titles and fields	Jane Nations/Y12	2	1	Enhancement			Useability font size	06/27/06
934	IU Move/Copy - 'From' table needs to be set to same font at 'To' table (this one ('To' table) looks great - fix all screens so they are this size!).	Jane Nations/Y12	3	2	Enhancement			Useability Move/Copy	06/27/06
935	IU Move/Copy - Place separate scroll bars on both tables, so the list is limited to just a few assets. Having complete list of assets in addition to list of IUs makes for a very long list.	Jane Nations/Y12	2	4	Enhancement			Useability Move/Copy	06/27/06
981	Can we have the option on the Move/Copy screen to select more than one IU at a time to move or copy?	Steve Patterson, Pantex	2	2	Enhancement			Useability move/copy	07/05/06
980	Need the minimize, maximize, close box button in the upper right corner of each screen.	S. Patterson, Pantex	3					Useability move/copy move back and forth	07/05/06
1054	Deficiency screen is too big. Font is too big.	NTS Inspectors			Enhancement			Useability Pantex wants to implement 1054 & 1055	09/09/06 - 10/31/06
1075	The SITE ASSET COST REPORT is confusing in the way in which it adds numbers (and should be simplified or made easier to understand). Add the Estimated Cost so that the costs tally.	Dan Soper/ NTS			Enhancement			Useability Report	11/01/06

CAIS Change Request Log

1076	The SITE ASSET COST REPORT is confusing in the way in which it adds numbers (and should be simplified or made easier to understand). Gene Buck suggests that we eliminate Base Cost, Geo Adj. Cost, Site Adj. Cost and Non CAS Cost and add Completed Cost and DM and RIC Flag 'No' cost so that the totals add up and the report makes sense. Note: This can be a new report.	Gene Buck/LANL			Enhancement			Useability Report	11/01/06
1073	Align Inspection Unit Detail Report headers for coverage percentages \with the corresponding data	Dan Soper/ NTS			Enhancement		User Guide Update	Useability Report alignment	09/09/06 - 10/31/06
971	Complete Survey Detail Report - 5. The "Def Maint:" box needs to go together on one line. (Now it is on different lines on the printed page.) Def: no Maint:	NTS Inspectors	2	2	Enhancement			Useability Report alignment	07/03/06
967	Complete Survey Detail Report - 1. The printed page needs numbers closer to headings	NTS Inspectors	2	2	Enhancement			Useability Report alignment	07/03/06
968	Complete Survey Detail Report - 2. The margins should line up	NTS Inspectors	2	2	Enhancement			Useability Report alignment	07/03/06
970	Complete Survey Detail Report - 4. The Coverage % column and the actual numbers need to align under the proper heading.	NTS Inspectors	2	2	Enhancement			Useability Report alignment	07/03/06
1004	Asset Level Reports - filtered it to building 605, then ran the "costing: site asset costs" report. It gave me the whole site anyway, not just building 605. I did this again and checked the box for 605, then it ran the report for only 605. So why have the filter function at all if you still need the box checked?	Gary Hoe/SNL	1		Enhancement			Useability Report filter when you do a filter, auto check or add a check all - uncheck	07/07/06
949	Inspection Asset Report Screen - Seems to take forever to load in the assets. (Gary Hoe - There is no progress bar or "wait a minute" flag to tell you it's loading, only the IE flag waving in the upper corner. You need something more obvious.)	Dan Soper/NT Gene Buck/LANL Gary Hoe/SNL	1	4	Enhancement			Useability Report slow	06/27/06
969	Complete Survey Detail Report - 3. It takes a long time to load Acrobat pages for viewing and printing	NTS Inspectors	2	3	Enhancement			Useability Report slow	07/03/06
911	Make a version of the Project Detail Report that sorts by Area and Asset. The current report sorts by Volume/WBS.	Teri Clayton/Pantex	2		Enhancement			Useability report sort	

C:\CAS Repository\Project Management\CAIS enhancements_latest.xls

956	Reports - I like the fact we can now choose to get multiple, for example, Complete Survey Detail reports like we could with Summary Condition Reports before, but when you print them it needs to number the pages per building.	Dan Soper/NTS	3	3	Enhancement			Useability reports	06/27/06
1006	Summary Condition Report - when running with no boxes checked, I get a completely blank page. Only the frozen IE flag told me the page was done. CAIS 5.3 at least gave me the headers as a clue I hadn't picked anything.	Gary Hoe/SNL	1	2	Bug			Useability Summary Condition	07/07/06
1020	Timed out - Many other sites that have a timeout feature send you back to the login page, giving me what looks like an error messag and a long CSV list is not an intuitive indicationI've timed out.	Gary Hoe/SNL	2	3	Enhancement			Useability time out	07/07/06
932	IU Detail Screen - If I use the type search tool and choose a new type, I lose the 'Next' capability (no buttons).	Jane Nations/Y12	2	1	Enhancement			Useability Type Search	06/27/06
1070	There is no anchoring or highlighting of the selected line in the TYPE SEARCH screen (but CAIS V5.3 does tha)t	Steve Patterson Pantex			enhancement			Useability Type Search	09/09/06 - 10/31/06
976	Type Search screen not easy to read "left to right". Can we make the result data set look like the Centralized version?	Steve Patterson, Pantex	2	2	Enhancement			Useability Type Search	07/05/06
